Date of issue	:	10.04.2026
Expiry Date	:	10.01.2029

This EU Type Examination Certificate covers the examination of the test results and technical file documentation in accordance with the PPE Regulation (EU) 2016/425 Annex-V for the above product group(s) by testing the product according to the relevant standards/technical specifications.
Following EU Type Examination, this product group has been found to meet the applicable essential health and safety requirements of the PPE Directive (EU) 2016/425 and Annex II as a product of the above-mentioned category.

This document remains valid for 5 years from the date of first issuance, unless the conditions in the harmonized technical specification change significantly.

EU TYPE EXAMINATION CERTIFICATE

TERMS AND CONDITIONS

In addition to TASEV's standard terms and conditions and those given in the current certification agreement, the following conditions apply. The certificate holder is licensed to mark the products detailed in this certificate as relating to personal protective equipment, in accordance with Annex V (Module B) of the European Union (EU) Regulation 2016/425 of the council of 9 March 2016. The EU product declaration of conformity has been prepared.

Notes:

1. Full details of the scope of certification and the product(s) certified are included in the manufacturer's technical dossier.
2. In cases where this certificate is translated into another language, the Turkish version will be accepted as the valid text.
3. Certification is limited to production carried out in facilities listed in the manufacturer's technical documentation.
4. Products continuing into production will be certified and consistent with the product(s) listed in this certification.
5. Any changes in the manufacturer, certified product or technical file will be reported to TASEV Certification.
6. It is the manufacturer's responsibility to ensure the continuity of conformity of the results obtained during the type test (compared to the passing requirement, classification or performance level), ensuring factory production control and production tolerances, and ensuring that the moment of inspection is the same as the moment the product is placed on the market.
7. This certificate, together with the relevant technical file, will be kept in a safe place by the customer mentioned in this certificate. This certificate and other documents may be requested by the Ministry, a representative of the government of the EC member state.
8. This certification relates only to the condition of the testable items at the time of the certification procedure and is subject to the expiration date shown.
9. TASEV Certification reserves the right to withdraw this certificate if it determines that the production, design, material or packaging condition has been changed and therefore no longer complies with the requirements of Regulation 2016/425.
10. This certificate is used only in conjunction with the applicable PB-17 Product Certification procedure. The organization mentioned in this document is authorized to use the notified body number and affix the CE conformity mark on products of the approved type, as defined in the PB-18 Document and Logo Usage procedure.
